

OHIO TOWNSHIP ASSOCIATION RISK MANAGEMENT AUTHORITY

OTARMA Administrator: 31555 West Fourteen Mile Road, Suite 110, Farmington Hills, MI 48334

Dear OTARMA Member,

In 2018, OTARMA welcomed a new risk control team member, Cal Anderson. Cal is the IT Risk Control Specialist for OTARMA. He is a certified IT Auditor and Risk Management Specialist with over 20 years of experience in assessing cyber breaches as well as hardware and software security. Cyber breaches are a real threat, and OTARMA is here to help its members. Cal will conduct systems and network security evaluations and provide risk control suggestions regarding cyber/internet security. In addition, he will conduct technology equipment valuations to ensure proper identification, valuation and coverage.

Cal will be contacting you some time in the future to schedule an IT risk control visit. In the meantime, if you have any questions or concerns about your IT computing environment or cyber security related issues, please feel free to contact Cal at 614-668-9901 or email him at Calbert.Anderson@persopool.com.

Yours in Service,

The OTARMA Board of Directors
